

## NEW OPEN DOOR IN JAPAN

We thank God that He continues opening new countries to our daily outreach to lost multitudes through local churches worldwide (to date, 38 countries and 18 languages). Indigenous churches use our ministry and messages in their own languages and cultures for church planting, evangelism, community development, and discipleship.

For more than ten years we've prayed for an open door into one of the world's most unreached nations: Japan. Throughout history there has never been a significant harvest among the Japanese people. Recently Asia Pacific regional director, Jeff Hartensveld, echoed and expressed our perennial passion well:

*"Imagine that of the 127 million population of Japan, 121 million are ethnically a single people group with only 0.3% Christian. It's shocking . . . that in the history of the world the Japanese have not ever been reached. They are the #NeverReached."*

Now, in God's time, the Lord has opened the door for Iris' and my daily outreach to be used in Japan. One of the main bridges churches use to try to connect Japanese people to Christ and His church is English learning. Millions of them are longing to learn English. Just as our messages are used for English-teaching evangelism throughout China's universities, our ministry can also be used this way in Japan both in personal evangelism and discipling, and in reaching thousands through various vehicles of mass evangelism, including evangelistic radio broadcasts, videos, internet blogging, podcasting, social media, etc. Please pray God uses our daily outreach to connect many never-reached Japanese to Jesus and His local church. *"Rich Japan, poor Japanese"* describes the ironic, spiritually impoverished condition of this desperate nation.

*This modern, wealthy country of nearly 130 million languishes in spiritual poverty, despair and darkness waiting for the Light to shine and show them the only Way to true Life. The Japanese people have waited long enough.*

## HEADING DOWN THE HOMESTRETCH ON THE ROAD TO INDO

We are grateful and energized to start heading down the homestretch of our itineration trail. We thank the Lord for His blessing and changed lives in the services, which makes us anxious to get going in this next promising season of unprecedented opportunities, both globally and locally in Jakarta, Indonesia (the world's second largest metropolis and largest Muslim country).

Our new strategic location will enable us to cost-effectively expand even further and maximize our growing opportunities to reach more lost cities and tribes in Asia, Africa, and Eurasia. We're also excited about our new additional assignment of local evangelism, leadership training, and pastoral ministry in Indonesia.

Every day on every continent, our outreach is used by indigenous churches **ON THE GROUND, ON THE AIR, and ONLINE** to reach and teach lost multitudes through one-on-one and small group evangelism and discipling, daily Christ-centered radio programs on leading secular stations, three books published throughout China's universities, English-teaching evangelism, daily evangelistic text messages on nationwide mobile phone networks, daily evangelistic newspaper columns, social networking, and pastoral evangelism and teaching—connecting Muslims, Buddhists, Hindus, Animists, and Secularists to bodies of believers for ongoing discipleship.

Our purpose is to help churches make Christ and His church known to the *unreached majority* of their cities, tribes, and countries. Most of these lost masses of people would otherwise never be reached and connected to local churches.

## CROSSING THE FINISH LINE

We are deeply grateful to God for you long-time, faithful friends of our daily ministry to non-believers and local churches throughout the years of its global growth. You have made it all possible.

As we're heading down the homestretch of raising our needed funds to keep up with this expansion, we'd appreciate your consideration of just a *one-time offering* that would enable us to cross the finish line and strategically relocate to Jakarta, Indonesia for this next fruitful season. A special *one-time gift* can be sent to: [s1.ag.org@hurstjhan](mailto:s1.ag.org@hurstjhan). You have so faithfully journeyed with us as we've pursued the lost and never-reached multitudes. We can't thank you enough! We are honored to be—*Your voice to the lost...in Indonesia and beyond.*
